DESJARDINS and R'emi VAILLANCOURT Notes for the course MAT 2384 3X Differential equation - Wikipedia A partial differential equation (PDE) is a differential equation that contains unknown multivariable functions and their partial derivatives. (This is in contrast to ordinary differential equations, which deal with functions of a single variable and their derivatives.)PDEs are used to formulate problems involving functions of several variables, and are either solved in closed form, or used to ... Solutions to Elementary Differential Equations with ... Free step-by-step solutions to Elementary Differential Equations with Boundary Value Problems (9780321288356) - Slader Computational electromagnetics - Wikipedia Computational electromagnetics, computational electrodynamics or electromagnetic modeling is the process of modeling the interaction of electromagnetic fields with physical objects and the environment.. It typically involves using computationally efficient approximations to Maxwell's equations and is used to calculate antenna performance, electromagnetic compatibility, radar cross section and ...
