Although questions in parasitoid community ecology are much the same for different groups, answers to these questions may not be due to differing biological traits. Ecology of Host-Parasitoid Communities - Science and community ecology, the study of natural host-parasitoid systems has a more practical aspect. Parasitoids are used in the practice of biological control, a form of pest control that has been revitalized recently because of the environmental problems caused by chemical insecticides. In spite of the fact that biological control has been
